2011 Promoting Teaching as a Profession

“Entry into the teaching profession and related roles must be inclusive without discrimination based on gender, race, age, sexual orientation, disabilities, political or religious beliefs, and economic or social conditions. Public authorities should support and monitor employment practices to ensure that discrimination does not occur.”
2015 Rights of teachers and children with disabilities

“Very little attention is paid to the barriers faced by disabled teachers. There is scant research globally on the recruitment, retention and progression of disabled teachers. It is essential that information is available on the situation of disabled teachers in order to overcome barriers faced by them.”

⇒ Strong support for strengthening the Sustainable Development Goals to enhance inclusion of disabled children, students and teachers;

⇒ Actively promote recruitment and employment of disabled teachers and furthering the global research on the situation of disabled teachers.
